

# Math Homework - EXAMPLE

Julie needs 12 party hats for her birthday. Her dad bought 7 hats on Thursday.  
How many hats does she still need to buy?

Understand

Julie needs 12 hats.  
Her dad bought  
7 hats.

Plan

I will subtract.

Solve

$$12 - 7 = \textcircled{5}$$

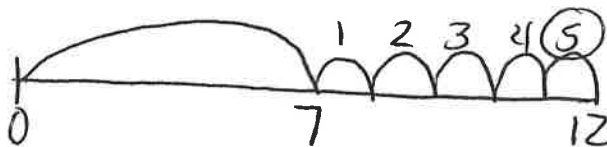

or

$$\begin{array}{r} 12 \\ - 7 \\ \hline 5 \end{array}$$

Check

or

or

Fact Family :

$$5 + 7 = 12$$

$$7 + 5 = 12$$

$$12 - 7 = 5$$

$$12 - 5 = 7$$

Choose  
one  
way.
